

Northwoods Child Development Center

A Great Place to be a Kid

Parent Supply Form

Infant Class-Bottles are required. You need to supply a bottle per feeding, which is approximately 3. They need to be labeled and dated. They must go home nightly. We prefer formula to come in a formula pre-measured container. Breastmilk bags must be labeled and dated. Please put all bags in a labeled zip-lock bag or insulated container to keep in the refrigerator.

Recyclable plastic shopping tote bag. This will store your child's coat, gloves, etc. and will prevent coats from touching other coats on the hooks. This is recommended by Youngstar to help prevent lice and spread of germs. Please, no cloth bag, this is not the grocery bag provided at the grocery stores but the recyclable one. Labeled with your child's name.

Pillowcase. To cover the mats that we have. We will stack them on a shelf, on a wall in each room. We wipe down the mats and spray with Lysol. If there is a potty accident, we do use bleach. The pillowcase will give us one more step to help prevent the spread of germs. Label with your child's name.

Crib and Sheet Blanket. Required for each child. Must be taken home and washed on your last day of attendance each week. Labeled with your child's name.

Indoor and Outdoor Shoes. Indoor shoes can be tennis shoes or house slippers. Outdoor shoes must be closed toe, closed heel. Preferably tennis shoes. Boots for winter. Labeled with your child's name.

Winter Outdoor Clothing. Coat, snow pants, waterproof gloves, hat and boots. Labeled with your child's name.

Spring and Fall Clothing. Jacket, snow pants, gloves, hat, boots if needed. Labeled with our child's name.

Diapers. Parents are required to supply diapers, pull-ups, wipes and ointment. All ointments require a medical authorization every 6 months. All medications, sunscreen and bug spray also require medical authorization updates every 6 months. When a teacher asks you for new supplies please bring them in the next day. If you are out, we will call you and request you bring it in immediately. This is for the health and sanitation rules for your child.
